### This game is coming soon

---

**Sleepy Mouse**© is a 2D, 75-level, physics based puzzle game in final stage development made with Unity, that's set for release in **August 2016** on iOS for both iPhone and iPad.

Sleepy Mouse is the little mouse who likes to sleep, loves his cheese, but hates to wake up hungry!

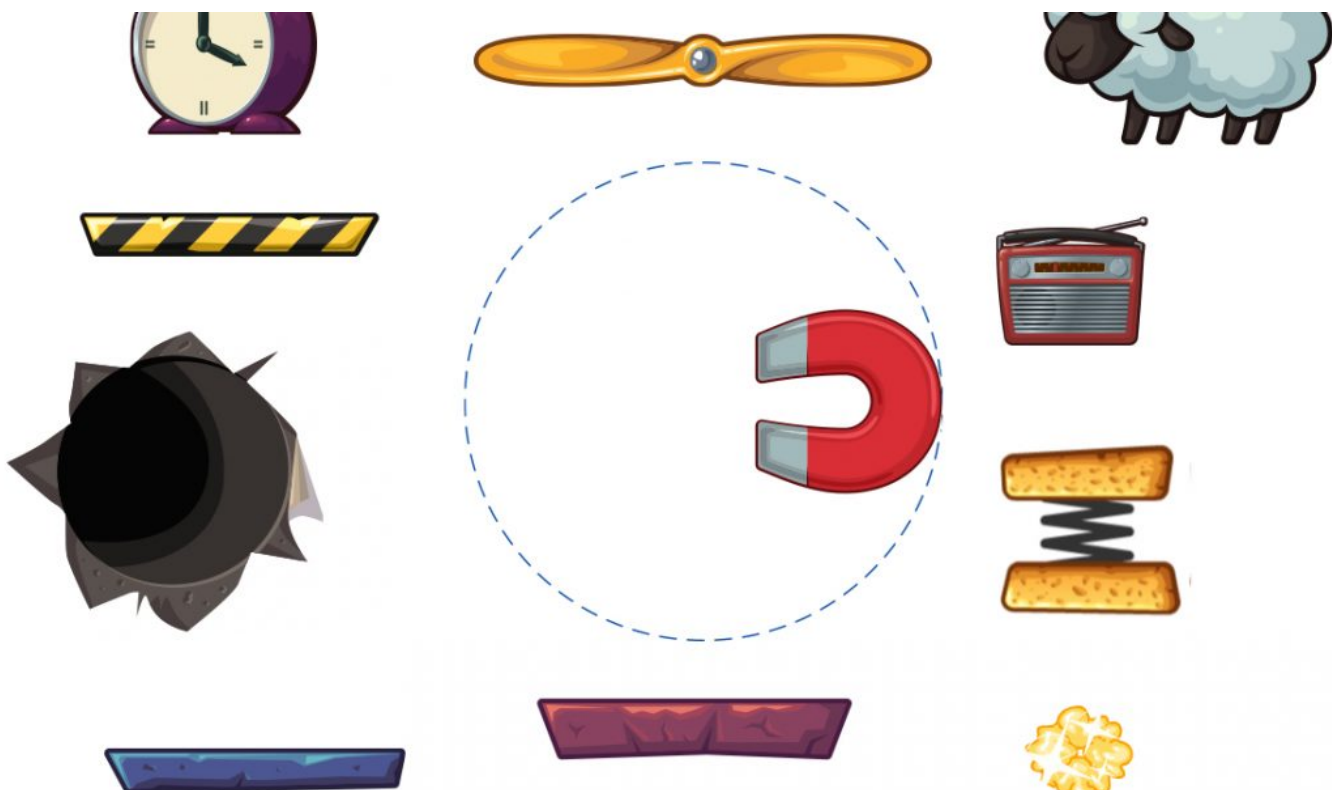

Aim of the game:

- Don't let Sleepy Mouse wake up hangry! Get him the cheese before he wakes!

Game features:

- Holes in the wall, fridge magnets, alarms and traps will try to steal Sleepy Mouse's cheese
- Make friends with blue cheese if you don't want to leave Sleepy Mouse in a stink!
- Shot complexity maximises scores
- Incorporates Everyplay so you can record levels and show off scores to friends
- Uses Unity Ads so you can watch ads to skip levels and come back later

Sleepy Mouse is a simple, fun and utterly addictive game that anyone can play. It's had great feedback from early testing and I can't wait to release it on the App Store in August.

Sleepy Mouse will be free to play with no in-app purchases.

Stay up to date with planned release dates for Sleepy Mouse on Twitter @SleepyMousegame #SleepyMousegame, on Facebook facebook.com/sleepymousegame and www.startgetready.com.
